Give them hope  
for a bright future!

"Helping districts improve student learning!"

# Come Join Us! Community Learning Centers Cadre

*We all have the same goal,  
so let's get together and share  
ideas to improve the quality  
of our programs and empower  
adults in our communities  
to earn their high school diploma!*

# Purpose of Cadre

SWPRSC has been managing Community Learning Centers and providing leadership and professional development for adult learning and alternative learning centers in Southwest Kansas for 12 years. This year the Southwest Plains Regional Service Center is expanding its professional development expertise to include all Southwest Kansas alternative learning centers in a cadre model. This cadre model will allow more CLC coordinators to share their ideas and increase the quality of their programs for students in alternative education.

This CLC Cadre is an opportunity for CLC coordinators to meet with other coordinators in their region to discuss questions, concerns, share successes and learn current required reporting procedures in a relaxed environment five times throughout the 2011-2012 school-year.

# Cadre Topics

Each Cadre meeting will give CLC coordinators the opportunity to discuss concerns and learn from each other about methods they apply in their CLC that improve performance and benefit student learning. Each meeting will also include an opportunity to virtually meet with *At* trainers and management to learn about new classes and discuss relevant issues about CLC students and their interaction with *At*.

## Additional Topics slated for the Cadre:

- IDL Connections with KSDE auditors and *At* program developers
- Marketing Ideas
- English Language Learners Issues
- Advisory Councils
- Handbook Ideas
- Attendance

# Cadre Dates

**Meeting time is  
9:00 AM—3:00 PM for all.**
